BRAIN RESEARCH

VOL. 500 NO. 1/2 CONTENTS 23 OCTOBER 1989

Publisher's Note vi

Research Reports

A substance P projection from the superior colliculus to the parabigeminal nucleus in the rat and hamster
C. Bennett-Clarke, R.D. Mooney, N.L. Chiaia and R.W. Rhoades (U.S.A.) 1

Cholinergic effects on spinal dorsal horn neurons in vitro: an intracellular study
L. Urban, J. Willetts, K. Murase and M. Randić (U.S.A.) 12

Dopamine D_2 receptors exert tonic regulation over discrete neurotensin systems of the rat brain
K.M. Merchant, L.G. Bush, J.W. Gibb and G.R. Hanson (U.S.A.) 21

Thallium-201 uptake relates to membrane potential and potassium permeability in human glioma cells
T. Brismar, V.P. Collins and M. Kesselberg (Sweden) 30

Coexistence of somatostatin with neuropeptide Y, but not with cholecystokinin or vasoactive intestinal peptide, in neurons of the rat amygdala
A.J. McDonald (U.S.A.) 37

α-Receptor and cholinergic receptor-linked changes in cytosolic Ca^{2+} and membrane potential in primary rat astrocytes
M.O. Kristian Enkvist, I. Holopainen and K.E.O. Åkerman (Finland) 46

Detection of an atropine-resistant component of the hippocampal theta rhythm in urethane-anesthetized rats
M. Stewart and S.E. Fox (U.S.A.) 55

Embryonic retinal grafts have a beneficial effect on the damaged host retina
T.W. Laedtke and J.E. Turner (U.S.A.) 61

Ultrastructural localization of choline acetyltransferase in the rat rostral ventrolateral medulla: evidence for major synaptic relations with non-catecholaminergic neurons
T.A. Milner, V.M. Pickel, R. Giuliano and D.J. Reis (U.S.A.) 67

Direct inhibition of choline acetyltransferase activity by a monoclonal antibody raised against the plasma membrane of cholinergic nerve terminals
L. Eder-Colli, Y. Froment and M.R. Monsurro (Switzerland, Italy) 90

Reversible inactivation of the medial septum: selective effects on the spontaneous unit activity of different hippocampal cell types
S.J.Y. Mizumori, C.A. Barnes and B.L. McNaughton (U.S.A.) 99

Excitation of locus coeruleus neurons by vasoactive intestinal peptide: evidence for a G-protein-mediated inward current
Y.-Y. Wang and G.K. Aghajanian (U.S.A.) 107

D_1 dopamine receptor-mediated substance P depletion in the striatonigral neurons of rats subjected to neonatal dopaminergic denervation: implications for self-injurious behavior
S.P. Sivam (U.S.A.) 119

Number, size, and class of peripheral nerve fibers regenerating after crush, multiple crush, and graft
C. Giannini, A.C. Lais and P.J. Dyck (U.S.A.) 131

Septal transplants ameliorate spatial deficits and restore cholinergic functions in rats with a damaged septo-hippocampal connection
M. Segal, V. Greenberger and E. Pearl (Israel) 139

Reduction of insulin binding in the arcuate nucleus of the rat hypothalamus after 6-hydroxydopamine treatment
B.J. Wilcox, A.M. Matsumoto, D.M. Dorsa and D.G. Baskin (U.S.A.) 149

Cerebral cortical concentrations of bioamines and their metabolites during arousal and after feeding in the little brown bat (*Myotis lucifugus*)
W.A. Bauman, A. Hashim and H. Sershen (U.S.A.) 156

Odor-induced metabolic activity in the olfactory bulb of rats trained to detect proprionic acid vapor
B.M. Slotnick, H. Panhuber, G.A. Bell and D.G. Laing (U.S.A., Australia) 161

Characterization of rat spinal cord receptors to FLFQPQRFamide, a mammalian morphine modulating peptide: a binding study
M. Allard, S. Geoffre, P. Legendre, J.D. Vincent and G. Simonett (France) 169

Global reduction in cerebral blood flow and metabolism elicited from intrinsic neurons of fastigial nucleus
K. Chida, C. Iadecola and D.J. Reis (U.S.A.) 177

(contents continued on pp. 411/412)

Cited in Biological Abstracts (BIOSIS) — Chem. Abstracts — Index Medicus — Current Contents (Life Sci.) — Excerpta Medica (EMBASE) — Psychological Abstracts (PsycINFO) — PASCAL M

(contents continued from backcover)

The characterization and regional distribution of neuromedin N-like immunoreactivity in rat brain using a highly sensitive and specific radioimmunoassay. Comparison with the distribution of neurotensin
F. de Nadai, J.-C. Cuber and P. Kitabgi (France) 193
Involvement of *N*-methyl-D-aspartate (NMDA) receptors in respiratory rhythmogenesis
A.S. Foutz, J. Champagnat and M. Denavit-Saubié (France) 199
Canine narcolepsy is associated with an elevated number of α_2-receptors in the locus coeruleus
B. Fruhstorfer, E. Mignot, S. Bowersox, S. Nishino, W.C. Dement and C. Guilleminault (U.S.A.) 209
Calcium-dependent displacement of haloperidol-sensitive σ receptor binding in rat hippocampal slices following tissue depolarization
J.F. Neumaier and C. Chavkin (U.S.A.) 215
Localization of oxytocin binding sites in the human brainstem and upper spinal cord: an autoradiographic study
F. Loup, E. Tribollet, M. Dubois-Dauphin, G. Pizzolato and J.J. Dreifuss (Switzerland) 223
Reduction in opioid and non-opioid forms of swim analgesia by 5-HT_2 receptor antagonists
J.M. Kiefel, D. Paul and R.J. Bodnar (U.S.A.) 231
Measurement of 3-methoxytyramine by in vivo voltammetry: evidence for differences in central dopamine function in BALB/c and CBA mice
F. Crespi, K.F. Martin, D.J. Heal, C.A. Marsden, W.R. Buckett and M.K. Sanghera (U.K., U.S.A., Italy) 241
Corticosterone-dependent alterations in utilization of catecholamines in discrete areas of rat brain
M. Jhanwar-Uniyal, K.J. Renner, M.T. Bailo, V.N. Luine and S.F. Leibowitz (U.S.A.) 247
Sequence of events in substance P-mediated plasma extravasation in rat skin
Z. Khalil and R.D. Helme (Australia) 256
Circadian rhythmicity after neural transplant to hamster third ventricle: specificity of suprachiasmatic nuclei
P.J. DeCoursey and J. Buggy (U.S.A.) 263
Evidence for a persistent sodium conductance in neurons from the nucleus prepositus hypoglossi
J.C. Rekling and A.M. Laursen (Denmark) 276
Microinjection of anti-vasopressin serum into hippocampus in mice: effects on appetitively reinforced task after intraventricular administration of Arg-vasopressin
B. Alescio-Lautier, D. Metzger, C. Devigne and B. Soumireu-Mourat (France) 287
Receptor occupancy by ritanserin and risperidone measured using ex vivo autoradiography
A. Schotte, K. de Bruyckere, P.F.M. Janssen and J.E. Leysen (Belgium 295
On the role of GABA as an inhibitory neurotransmitter in inferior colliculus neurons: iontophoretic studies
C.L. Faingold, G. Gehlbach and D.M. Caspary (U.S.A.) 302
Antibodies directed against tyrosine hydroxylase differentially recognize noradrenergic axons in monkey neocortex
H.J. Noack and D.A. Lewis (U.S.A.) 313
The effects of intracranial administration of the dopamine agonist apomorphine on penile reflexes and seminal emission in the rat
E.A. Pehek, J.T. Thompson and E.M. Hull (U.S.A.) 325
Effects of glucose deficiency on glutamate/aspartate release and excitatory synaptic responses in the hippocampal CA1 area in vitro
S.P. Burke and J.V. Nadler (U.S.A.) 333
Ubiquitin in normal, reactive and neoplastic human astrocytes
P.G. Galloway and M.J. Likavec (U.S.A.) 343
Cerebral sodium sensors in the sodium-deplete sheep
E. Tarjan, D.A. Denton and R.S. Weisinger (Australia) 352
Influence of acetylcholine on neuronal activity of monkey amygdala during bar press feeding behavior
L. Lénárd, Y. Oomura, Y. Nakano, S. Aou and H. Nishino (Japan) 359

Short Communications

The *N*-methyl-D-aspartate receptor complex in Alzheimer's disease: reduced regulation by glycine but not zinc
J.E. Steele, A.M. Palmer, G.C. Stratmann and D.M. Bowen (U.K.) 369
Development of tolerance in brain mitochondria for calcium uptake following chronic ethanol ingestion
R.P. Farrar, C. Seibert, K. Gnau and S.W. Leslie (U.S.A.) 374
Monoclonal antibodies to study the brain in schizophrenia
W.G. Honer, C.A. Kaufmann, J.E. Kleinman, M.F. Casanova and P. Davies (U.S.A.) 379
Interaction of intracerebroventricular insulin and glucose in the regulation of the activity of sympathetic efferent nerves to brown adipose tissue in lean and obese Zucker rats
S.J. Holt and D.A. York (U.K.) 384

Organization of projections from the mediodorsal nucleus of the thalamus to the basolateral complex of the amygdala in the rat
E.H.S. van Vulpen and R.W.H. Verwer (The Netherlands) 389
Changes in EEG spindle activity induced by ibotenic acid lesions of medialis dorsalis thalamic nuclei in the cat
G. Marini, I. Gritti and M. Mancia (Italy) 395
Modulation of a viscerosomatic reflex by electrical and chemical stimulation of hypothalamic structures in the rat
B.M. Lumb and F. Cervero (U.K.) 400
Circling, hemispheric asymmetry, and left–right discrimination
C.D. Willar and D.P. Crowne (Canada) 405
